

Mega Shopping Lists

for all Stations

Here, in one place, is a list of all the materials and supplies needed by all the stations. (Decorating supplies are not included.) This is a summary of items needed by each station for the entire five days. The list has been separated into two categories: **1 / Items needed every day**, and **2 / Specific items needed each day**.

This way if you have a Resource Manager as part of your team, that individual can see at a glance if there are items that more than one station needs for the week and can purchase those things in bulk rather than having each station leader make individual purchases. Also, you may have parents or others who wish to donate certain items to the Cactusville VBX and this allows you to see the quantity of any given item that is needed so you can assign an individual donor with the responsibility of purchasing/obtaining that particular item in the quantity needed.

Round Up
